

# Building Micro-frontends with Angular

By: Varun S, Coditas

coditas

# Let's talk about Micro- frontends

# Who am I?

**Varun S**

Director of Technology at Coditas.

Coder. Entrepreneur. Aspiring Barista.

We build UX focused software solutions  
for our clients.

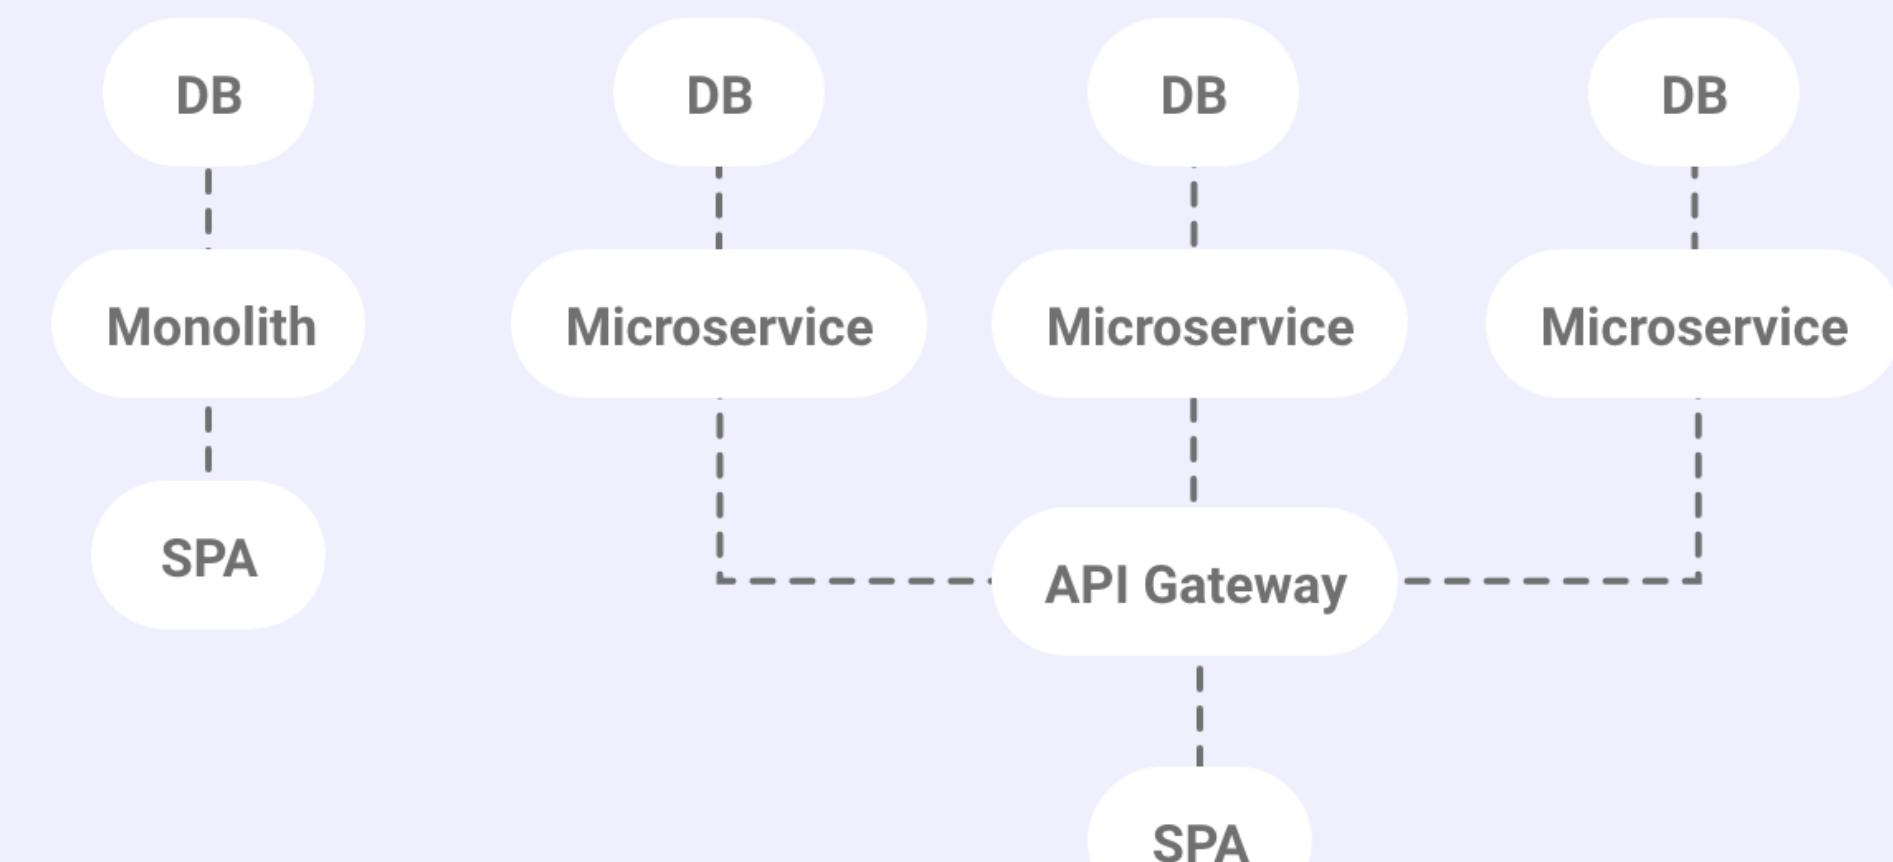

We are hiring for lots of positions.

Check out the link in the comments.

Let's start  
from the  
beginning...

### Scaling our Applications

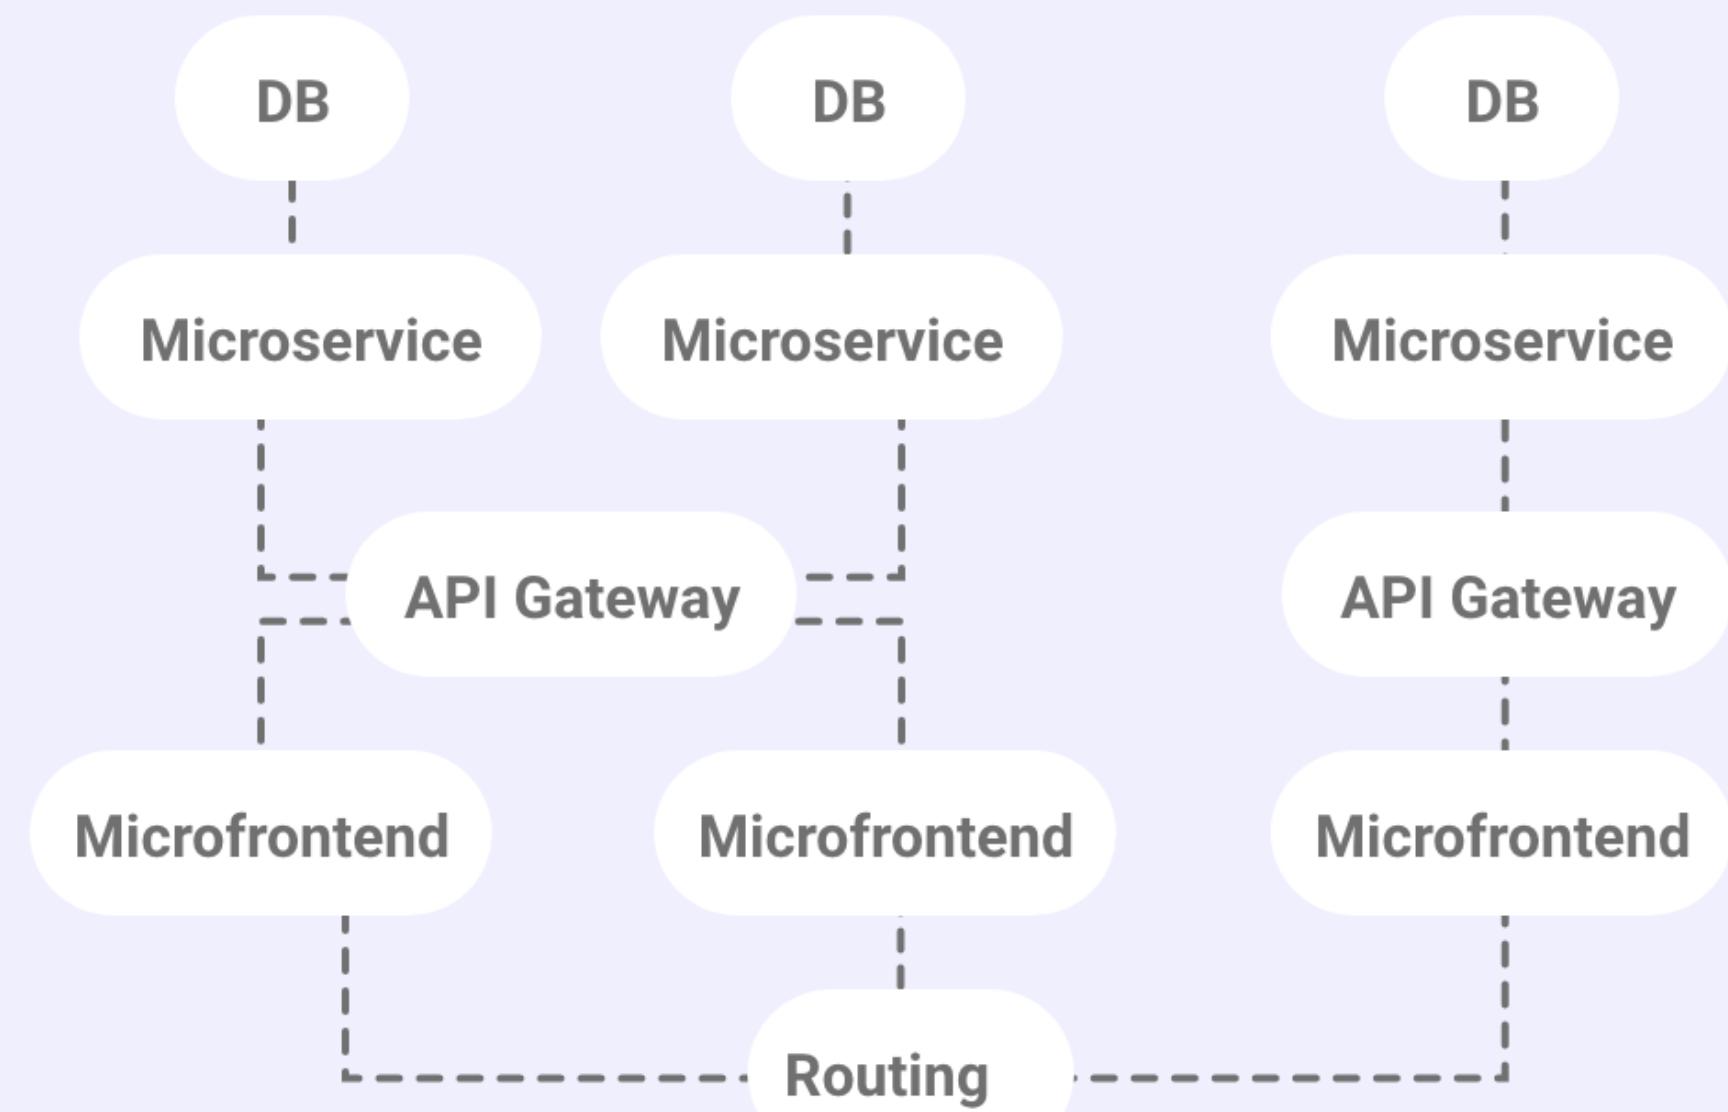

# Frontends are getting bigger and bigger

# Micro- frontends

## Scaling our Applications with Microfrontends

# Micro- frontends

An architectural style where independently deliverable frontend applications are composed into a greater whole.

# Let us understand with an example

The Model Store
